The following positive changes are being created and implemented in the poultry production business:

Equivalent animal welfare, bio-security and food safety standards in all poultry production sites, based on the successful development in these areas in Putnu fabrika Kekava.

One unified management structure – one unified sales strategy in all markets.

Expanded Top Choice poultry product line and increased sales volume – new products and new possibilities!

- The total acquisition includes 34 businesses operating in the three Baltic countries, Russia, Belarus, Poland and the Netherlands.
- This acquisition makes Linas Agro group a major food and agricultural business group in the Baltic region and places in a position of controlling the foodstuff manufacturing chain from the field to the table.
- The group's projected annual revenue could reach approximately 1.3 billion euros and EBITDA approximately 50-60 million euros.
- In total AB Linas Agro Group manage 76 subsidiaries.
- The number of employees increases from 2,100 to 6,000.
